SUMMARY

I'm a skilled carpenter leading hand with seven years of experience, proficient in managing trades on-site and excelling in problem-solving and practical applications.

CAREER HISTORY

Owner at Takumi Carpentry

September 2024 – Current

- Owner of a sole-trading carpentry business, providing a range of construction services to private builders and clients.

Project Officer at Aegis Engineering

September 2023 – September 2024

- Perform engineering, defect and condition inspection audits assessing the structural soundness of already built class 1, 2-9 and 10a structures.
- Identification and diagnoses of building defects using measuring equipment and field-based investigations.
- Design remedial actions to effectively and efficiently strengthen compromised structures communicated through engineering reports.
- Regular incorporation of National Construction Code (NCC) and Australian Standards guidelines to ensure compliance and quality in construction activities.
- Draft engineering drawings to communicate ideas, designs and plans.
- Collaborate with stakeholders to define project requirements and specifications, ensuring clarity and accuracy in tender documents.
- Coordinate and manage the construction tender process (end to end), including preparing tender documentation, issuing invitations to tender, and evaluating tender submissions.
- Project manage construction work and provide financial control to ensure budgets are maintained.
- Design basic structural steel and timber beams and columns using industry computer modelling software's, span tables and first principal hand calculations.

Carpenter Leading Hand at Top Ridge Constructions

April 2020 – August 2023

- Reading and interpretation of architectural and engineering plans.
- Installation of structural propping and structural steel elements.
- Reinforcement, formwork and concrete placement.
- Wall construction, conventional roof pitching and truss installation.
- Fascia, gutter and eave installation.
- Metal roofing and flashing installation.
- Windows and door installation.
- External and internal wall and ceiling cladding.

- Hanging of doors and hardware furniture, architraves, skirting and heritage fix out.
- Inspected work performed by general trades to check completion of job specifications.
- Supervised teams and trades, answering questions and providing feedback on work progress.
- Heavy focus on renovations and remedial construction.

Carpenter at Stratti Building Group

March 2018 – March 2020

- Reading and interpretation of architectural and engineering plans.
- Safe and systematic demolition of multi-story structures and elements.
- Installation of structural propping and structural steel elements.
- Installation of artwork (including security mounting).
- Reinforcement, formwork and concrete placement.
- Wall construction.
- Installation of bespoke external and internal wall and ceiling claddings.
- Installation of bespoke timber flooring.
- Hanging of doors and furniture, architraves, skirting and high-end fix out.
- Major KPI was to ensure all projects were completed on time and within budgets with no building defects or safety incidents.
